

OPEN HEALTH

Therapy area expertise aligned to  
your areas of focus

**unlock** possibilities

# Across the OPEN Health group, we have experience in all of your disease states

	ONCOLOGY	RESPIRATORY	RHEUMATOLOGY	NASH	VACCINES	ANTI-INFECTIVES	HEPATOLOGY	HIV
Years of experience:	>20	>20	>20	>4	>7	>10	>20	>10
Staff with experience:	>50%	>230	>100	>15	>90	>85	>120	>80
Brands supported:	>150	>30	28	4	>20	22	30	3
Projects in the past 5 years:	>8000	>500	>790	19	>80	>195	>700	20

# We have broad and deep experience across your disease areas in Scientific Communications, Medical Strategy, Patient Engagement, and Digital (1 of 2)

## Hematology (oncology)

**Leukemia:** Chronic lymphocytic, acute lymphoblastic, acute myeloid, chronic myeloid  
**Lymphoma:** cutaneous T-cell, diffuse large B-cell, enteropathy-associated T-cell, follicular, peripheral T-cell Hodgkin, non-Hodgkin, mantle cell, marginal zone  
**Other:** advanced systemic mastocytosis, mycosis fungoides, multiple myeloma, myelodysplastic syndrome, myelofibrosis, Waldenström macroglobulinemia

## Breast and gynecological (oncology)

**Breast:** Metastatic, advanced, hormone receptor-positive, HER2-negative advanced, HER2-positive, HER2-positive metastatic, hormone-dependent, BRCA mutations, triple-negative, NTRK gene fusion  
**Gynecological:** Cervical, endometrial, gynecologic surgery, ovarian, fallopian tube, peritoneal

## Solid tumors (oncology)

Biliary tract, bone, bowel, brain, breast, cervical, colorectal, endometrial, gastric, gastrointestinal stromal tumor, head and neck, renal, liver, lung, neuroblastoma, neuroendocrine, oesophagus, ovarian, pancreatic, prostate, skin (melanoma, non-melanoma), soft tissue, thyroid, urothelial

## Adult immunization (vaccines)

COVID-19, influenza, respiratory syncytial virus, herpes zoster

## Pediatrics (vaccines)

Cholera, COVID-19, cytomegalovirus, dengue, diphtheria, Ebola, hepatitis A and B, human immunodeficiency virus, human papillomavirus, herpes zoster, influenza, Japanese encephalitis, meningococcus (Group B and ACWY), pertussis, pneumococcus, polio, respiratory syncytial virus, rotavirus, streptococcus, tetanus, tick-borne encephalitis, typhoid, varicella zoster virus

# We have broad and deep experience across your disease areas in Scientific Communications, Medical Strategy, Patient Engagement, and Digital (1 of 2)

## Anti-infectives (general medicines)

Malaria, leishmaniasis, bacterial conjunctivitis, cholera, *Clostridium difficile*, community-acquired pneumonia, complicated intra-abdominal infections, complicated urinary tract infection, diphtheria, *Helicobacter pylori*, hospital-acquired pneumonia, pertussis, sepsis, skin and structure infections, tetanus, typhoid, upper respiratory infections, ventilator-associated pneumonia, aminoglycosides, carbapenems, cephalosporins, fluoroquinolones, ketolides, lipoglycopeptides, nitroimidazoles, ureidopenicillins, candidemia, coccidioidomycosis, invasive aspergillosis, onychomycosis, *Scedosporium prolificans*, Zygomycetes, allylamines, benzoxaboroles, echinocandins, triazoles, COVID-19, CMV, dengue, Ebola, Epstein-Barr virus, hepatitis A/B, human papillomavirus, influenza, Japanese encephalitis, norovirus, polio streptococcus, tick-borne encephalitis

## Respiratory (general medicines and specialty)

A1-antitrypsin deficiency, asthma, bronchiectasis, COPD, chronic rhinitis with nasal polyps, cystic fibrosis, chronic bronchitis, chronic cough, lung disease, idiopathic pulmonary fibrosis, mycobacterium avium complex lung disease, oxygen therapy, tuberculosis, pulmonary arterial hypertension, pneumococcal disease, pneumonia

## Rheumatology (specialty)

Ankylosing spondylitis, axial spondylitis, Behçet's syndrome, Crohn's disease, Duchenne muscular dystrophy, Dupuytren's contracture, Friedreich's ataxia, gout, juvenile idiopathic arthritis, lupus nephritis, osteoarthritis, osteoporosis, psoriatic arthritis, rheumatoid arthritis, rheumatoid vasculitis, scleroderma, spinal muscular atrophy, systemic lupus erythematosus

## Hepatology (specialty)

Acute hepatic porphyria, acute liver failure, biliary atresia, cirrhosis, cholestatic liver disease, hepatitis B, hepatitis C, hepatocellular carcinoma, hepatorenal syndrome type 1, hypercholesterolemia, liver transplantation, lysosomal acid lipase deficiency, pancreatic cancer, primary biliary cholangitis, primary hyperoxaluria, progressive familial intrahepatic cholestasis, Wilson's disease

## NASH (specialty)

Non-alcoholic fatty liver, non-alcoholic steatohepatitis

## HIV treatment and prevention (ViiV)

Fusion inhibitors, non-nucleoside reverse transcriptase inhibitors, nucleoside reverse transcriptase inhibitors, protease inhibitors
